

Lakshay Kathpalia

Computer Science & Engineering (AI,ML) | B.Tech 2027

Email: lakshay.kathpalia1305@gmail.com | Contact: +91 7065801360 | Location: Gurgaon

Work Experience

Fuinno Technologies LLP , Gurgaon– AIML Intern		June'25-July'25
Roles and Responsibilities	- Developed a CRM web application using Flask (backend), React (frontend), and MySQL for managing Purchase Orders, Order Tracking, and Reports. - Implemented REST APIs with CRUD operations and built an OCR-based invoice upload system to extract key invoice details from PDFs. - Automated Vendor-wise, Account Manager-wise, and Customer-wise report generation with real-time data handling and CSV export. - Designed frontend forms, validation, and integrated backend modules for seamless workflow automation	
Key Learnings and Achievements	- Developed a full-stack CRM Tool using React, Flask, and MySQL with complete frontend-backend integration. - Implemented OCR-based invoice and purchase order data extraction from PDFs using Python automation. - Built automated reporting modules including Vendor-wise, Customer-wise, and Account Manager-wise reports. - Improved practical skills in API development, database management, debugging, and real-time data handling.	

Educational Qualification

Qualification	Institute	CGPA	Year
B.Tech	The Northcap University, Gurgaon	6.72/10	Pursuing
XII, CBSE	Amity International School, Pushp Vihar, Delhi	81.0%	2023
X, CBSE	Blue Bells Model School, Gurgaon	9.1/10	2021

Projects

The Northcap University, Gurgaon

Title: Trafficiq – Smart traffic control system

Project Objective	Develop a smart traffic control system using reinforcement learning to optimize traffic signal timings, analyze traffic flow using sensor data, and reduce congestion through adaptive signal management.	
Roles and Responsibilities	- Developed the traffic signal optimization system using Python and reinforcement learning. - Integrated sensor/vehicle detection data for traffic density analysis. - Implemented adaptive signal timing logic for real-time decision-making. - Integrated OpenCV, OCR to detect vehicles and improve traffic flow efficiency.	
Key Learnings and Achievements	- Gained practical experience in reinforcement learning and intelligent automation. - Improved understanding of real-time data processing and traffic analysis. - Built an adaptive traffic management system to reduce congestion. - Strengthened Python development, debugging, and problem-solving skills.	

The Northcap Univeristy , Gurgaon

Title: Checkify - Academic Authentication Validator

Project Objective	Develop a secure academic document verification system to validate certificates, transcripts, and mark sheets while preventing fraud and unauthorized modifications.	
Roles and Responsibilities	- Developed the backend using Python and MySQL for document validation and storage. - Implemented authentication for secure access and verification. - Designed verification workflows and managed academic record processing.	
Key Learnings and Achievements	- Gained experience in secure authentication and backend security. - Improved knowledge of database management and data validation. - Built a secure system for efficient academic document verification.	

Positions of Responsibility

The Northcap University, Gurgaon

Class Representative	Acted as liaison between students and faculty, ensuring smooth academic coordination.	2023-24
-----------------------------	---	---------

Additional Certifications

The Northcap University	Minor Certification – VLSI Physical Design	2025-26
-------------------------	--	---------

Interests

Technical Competencies	Python, Java, C, SQL, JavaScript, HTML/CSS, Flask, React, Pandas, NumPy, Bootstrap, Git, GitHub, MySQL, SQLite, RESTful APIs, Machine Learning, Data Analysis, Web Development, Database Management	
Sports and Leisure	Badminton, Golf
